

How to apply for the Research Assistant Position at UAM within the research project: EXPERT SYSTEM PREDICTING THE ENVIRONMENTAL IMPACT OF PESTICIDES (SEPIA)

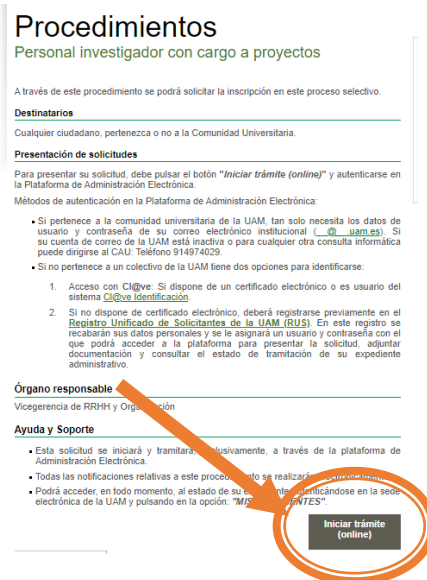

Candidates interested in the **research assistant contract** (pre-doctoral level) offered by [Manuel Alcami](#) to participate in the automatization of Quantum Chemistry calculations for the development of an expert system to predict the environmental impact of pesticides (<https://www.uam.es/uam/investigacion/ofertas-empelo/contrato-pesticidas-manuelalcami>), must follow the application procedure described below.

Deadline: September 5, 2022.

1. UAM JOBS PORTAL

Applicants should send their applications online (including CV, PhD diploma and proofs for other merits they wish to be evaluated, as described in the [call document](#)), using the Electronic Registry of the University: <https://sede.uam.es/sede/piproyectos>.

The submission of the application will begin, by clicking on the button "Iniciar trámite online" / "Start procedure". Applicants should follow a 3 step process (identification phase + application completion phase + registration phase).

1.A. Identification Phase

1.A.i. For those who already belong to the UAM collective and, therefore, have an email address belonging to the domain "@ uam.es", they must use the "Acceso con usuario y contraseña", of which already have. a

1.A.ii. If the applicant does not belong to UAM, there are two options for identification:

a) Interested researchers who have an electronic certificate, or any other identification system of the Administrative Public Sector through the use of agreed passwords, must use the " Acceso con CI@ve ". a

b) Others, who cannot use the previous identification methods, may use the **UAM Unified Registry of Applicants (RUS)**. In this registry, your personal data will be collected, and you will be assigned a username and password with which you will be able to access the electronic site to submit the application, attach the required documents and check the status of its processing of files. The issuance of the credentials and the inclusion in the RUS do not imply the recognition by the UAM of the fulfilment of the requirements demanded of the interested party, the latter being responsible for the veracity of the information provided.

Those who access the RUS must follow the instructions in the [Users Manual](#) to obtain a username and password. Once the registration phase has concluded, and they have an active RUS user, they will access the link where the application is available, starting the process by entering the username and password obtained in the RUS in the "Acceso con usuario y contraseña" (access with username and password) b

1.B. Application completion phase

The applicants will have the instructions to complete the electronic procedure in the "Ayuda"/ "Help" tab.
